SUMMARY

Software Engineer with 7 years of experience, specializing in frontend development with 4+ years of hands-on experience in React.js. Skilled in JavaScript, **React.js**, **Vue.js**, **Redux**, **REST APIs**, **responsive UI**, **performance optimization**, **testing**, and **debugging**, with experience in AI-assisted development and Agile/Scrum.

KEY SKILLS

Programming Languages/Frameworks: JavaScript, TypeScript, React.js, Vue.js, Next.js, Node.js

State Management: Redux Toolkit, Zustand, Pinia, React Context API, TanStack Query

Web Technologies: HTML, CSS, Tailwind CSS, DaisyUI, Material UI

AI-Assisted Development: ChatGPT, GitHub Copilot, Cursor, Claude, Prompt Engineering, AI-Assisted Coding, Debugging, Refactoring, Code Review, RAG, Base models, MCP servers, LLMs

API Integration: RESTful APIs, Fetch API, Axios, GraphQL, WebSocket, Socket.io

API Security: Secure API calls, CORS handling, JWT, OAuth

Databases/Development Tools: SQLite, MongoDB, Git/GitHub, NPM, Webpack, Babel, VS Code

Testing/Debugging Tools: Jest, React Testing Library, Browser, Redux, and React Developer Tools

Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

Software Engineer

Dec '25 - Jun '26

Nisum Technologies

Hyderabad

- Developed dynamic product listing and product card components by integrating **backend REST APIs** using **React.js**
- Implemented **lazy loading**, **pagination**, and **Shimmer UI Effects** to improve application performance and browsing experience.
- Implemented product filtering, sorting, **debounced search**, and **throttled interactions** based on category, price, and ratings.
- Implemented **online/offline** status indicators to improve user awareness of network connectivity.
- Integrated **React Router** and **implemented dynamic routing and protected routes** for seamless, secure application navigation.
- Integrated **Tailwind CSS** to build responsive and maintainable user interfaces.
- AI-Assisted Development:** Leveraged **ChatGPT**, **GitHub Copilot**, and **Cursor** and more with effective **prompting techniques** for coding, debugging, refactoring, and faster project delivery.
- Agile Collaboration:** Worked closely with cross-functional teams, including QA, backend engineers, and business analysts, in an Agile/Scrum setup, participating in sprint planning and daily stand-ups.

Associate

May '25 - Sep '25

Synechron

Hyderabad

- **View and Update Policies:** Users can view all their active and past insurance policies, including details like coverage, premium amounts, and expiry dates.
- **Policy Renewal:** Integrated with APIs to allow users to renew their policies directly from the dashboard.
- **Profile Updates:** Users can update their personal information, such as address, contact details, and email preferences, from the dashboard.
- **View Payment History:** Integrated APIs to display users' payment histories, including recent transactions and upcoming payment schedules.
- **FAQ Section:** Implemented a responsive **accordion-based FAQ section** allowing users to expand and collapse frequently asked questions for quick access to policy and insurance information.
- **Troubleshoot, debug,** and resolve software defects and issues using Redux, React, Chrome Developer Tools, and **React Profiler**.

Frontend Developer

Jul '22 - May '25

SGR Info Systems Pvt Ltd

Hyderabad

- Developed a responsive inventory management dashboard using **Vue 3 and Pinia** for organizational asset tracking.
- Built reusable Vue components for **inventory CRUD, asset details, and status management**.
- Implemented asset lifecycle workflows covering **assignment, return, repair, and retirement**.
- Integrated **REST APIs** for inventory, employee, asset history, and dashboard data with loading and error handling.
- Used **Pinia, computed properties, debounced search, and lazy loading** to optimize state management and UI performance.
- Debugged and resolved **UI, API, and performance issues** using Chrome DevTools and Vue DevTools.

IT & BME Specialist

Apr '19 - Jun '22

Sarvottam Healthcare Pvt Ltd.

Kakinada

- Transitioned from Biomedical Engineering into frontend development by upskilling in **JavaScript, React.js, and modern web development**.
- Built a responsive patient dashboard using **React, Tailwind CSS, and Context API** for managing health records and upcoming consultations.
- Integrated mock RESTful APIs to display lab test results, prescription history, and doctor availability.
- Implemented role-based UI views for Patient and Doctor workflows.
- Optimized frontend performance through lazy loading of medical history components and images, achieving a **90+ Lighthouse score**.
